Guidelines: This Self-Certification Replant Worksheet may be used when the acreage to be replanted is 50 acres or less for a unit. Per the policy provisions, in order to qualify for a replant payment, the number of acres to be replanted must be at least the lesser of 20 acres or 20% of the insured planted acreage for the unit (as determined on the final planting date or with the late planting period if a late planting period is applicable). The potential for the acres to be replanted must not exceed the amount state in the crop policy. A replant payment may be made only once on acreage in the same location for the same crop.

Complete and mail this form within five (5) days after completion of the replanting on the unit for replanting payment. If the crop provisions specify a replanting payment is based on actual cost, attach copies of receipts for replanting expenses actually incurred for the replanted acreage (those expenses you actually paid or are liable for). Refer to your crop policy qualification for replanting payment.
