

**RPowerD™ - Sales Closing Date is April 1 – It's not too late for upside opportunity**

**March 19, 2019**

Producers want opportunities to raise their minimum crop insurance revenue triggers if we see higher prices during the planting and growing season, but don't want to spend much. Take a look at some value priced RPowerD strategies we highlighted in the previous RPG [here](#).

Or, jump right to *Quick Maps* to see prices for higher bands of coverage or pre-selected intervals. We have added functionality showing exactly what inputs are used to generate the RPowerD county premium estimates. We now display the implied revenue trigger of the estimate. Best of all, agents can jump right from the map into the quote set up screen to customize the estimate and access all Agent eVantage sales and decision tools. Quick maps are available from the welcome screen on [www.AgenteVantage.com](http://www.AgenteVantage.com).
